

Heartfelt Pre-Authorization Appeal Letter

Subject: Appeal for Pre-Authorization Denial - Member ID: [Member ID]

Dear Medical Review Team,

I hope this letter finds you well. I am writing with a heavy heart to appeal your recent denial of pre-authorization for the surgical procedure recommended by my surgeon, Dr. [Name].

This procedure is not something I take lightly. After months of conservative treatment and physical therapy, my condition has only worsened. The constant pain affects every aspect of my daily life - I can barely sleep, work has become increasingly difficult, and simple tasks like playing with my children have become impossible.

My surgeon has exhausted all non-surgical options and believes this procedure is the only way to restore my functionality and relieve my suffering. The alternative is continued deterioration and permanent disability.

I understand the need for cost control, but I implore you to consider the human element in this decision. I am not asking for anything experimental or unnecessary - just the chance to regain my life and be the parent, spouse, and employee I once was.

Please review the enclosed medical documentation and physician's detailed explanation of medical necessity. I am willing to provide any additional information you require.

I trust in your compassion and professionalism to make the right decision.

With hope and gratitude,

[Your Name]
