

Technology Sector Application Message

Subject: Software Developer Position - New Graduate with Strong Technical Foundation

Dear [Hiring Team/Name],

I am writing to apply for the Software Developer position at [Company Name]. As a recent Computer Science graduate from [University], I am excited to launch my career in technology with an innovative company like yours.

My academic background includes extensive coursework in [programming languages, frameworks, technologies]. I have completed projects in [specific technologies] and have experience with [development methodologies]. My capstone project involved [project description] which demonstrates my ability to work with [specific skills].

During my studies, I contributed to open-source projects including [project names] and maintained a GitHub repository with [number] of projects. I am particularly interested in [specific technology area] and have been following [Company Name]'s work in this field with great interest.

I am confident that my technical skills, problem-solving abilities, and eagerness to learn would make me a valuable addition to your development team. I have attached my resume, GitHub profile link, and a portfolio of my projects.

I would appreciate the opportunity to discuss how I can contribute to [Company Name]'s technological initiatives.

Thank you for your consideration.

Best regards,

[Your Name]
