

Heartfelt Parent Authorization for Student Loan

Subject: Parental Authorization for My Child's Student Loan

Dear Financial Aid Office,

As the parent of [Student's Name], I want to help them navigate their educational financing. I'm writing to authorize myself to access and discuss their student loan account [Account Number] so I can provide support during their academic journey.

While I respect my child's independence, I also want to ensure they have the guidance they need to make informed financial decisions. This authorization will help me:

- Understand payment options after graduation
- Assist with deferment applications if needed
- Help monitor loan status and balances
- Support them through any financial difficulties

My child has provided verbal consent for this access, and I promise to use this privilege responsibly and in their best interests.

Thank you for supporting our family through this educational investment.

Warm regards,

[Parent Signature]
