

Personal message to immediate family members

Subject: Important Family Update

Dear Mom, Dad, and Family,

I hope you're all doing well. I'm writing to share some difficult news that I wanted you to hear directly from me.

[Partner's name] and I have decided to call off our engagement. This wasn't an easy decision, and it's been weighing heavily on both of our hearts. Despite our best efforts and the love we share, we've realized that we want different things from life and marriage.

I know this news might come as a shock, especially after all the wedding planning and excitement. I'm deeply sorry for any disappointment this may cause, and I understand if you need time to process this.

Your love and support have meant everything to me, and I hope I can count on that now more than ever. Please know that this decision, while painful, feels right for both of us.

I love you all and look forward to talking with you soon.

Love,

[Your name]
