

Creative and engaging internship application

Subject: A Curious Mind Ready for a Business Internship

Hello [Recruiter's Name],

I'm excited to apply for the Business Internship at [Company Name]. As a student of [your field], I have always been fascinated by the way businesses grow, adapt, and create impact. That curiosity led me to internships, case studies, and even starting a small campus project where I tested my ideas in real time.

I'm looking for a place where my creativity, analytical thinking, and eagerness to learn can find the right stage—and I believe [Company Name] is that place. I'd love to bring my passion for strategy and innovation to your team while soaking up as much real-world experience as possible.

Looking forward to the chance to chat further!

Best regards,

[Your Name]
