

Detailed Letter

Dear Dr. [Chiropractor Name],

I am referring [Patient Name], a 45-year-old patient with a history of lumbar disc herniation, chronic postural strain, and previous physiotherapy interventions. Despite conservative management, the patient continues to report pain and reduced function.

Attached are complete medical records, imaging studies, and a summary of prior treatments. Your assessment and chiropractic management are requested to help improve their mobility and pain levels.

Thank you for your attention and care.

Sincerely,

[Your Name]

[Medical Practice / Clinic]
