

Medical situation rejection

Subject: Regarding Your Generous Medical Fund Contribution Offer

Dear [Donor Name],

I want to express my deepest appreciation for your willingness to contribute to my medical expenses. Your compassion during this difficult time has provided emotional support that extends far beyond any financial assistance.

After discussions with my family and medical team, we have decided not to accept donations at this time. Our insurance coverage and current financial resources are sufficient to manage the immediate medical costs, and we believe these funds should be directed toward individuals facing more severe financial hardships.

Your gesture has reminded me of the incredible kindness that exists in our community. I hope you will consider directing your generous spirit toward others who may be in greater need of assistance.

Please know that your thoughtfulness has been a source of strength during my recovery.

With sincere gratitude,

[Your Name]
