

Large outdoor festival weather cancellation

Subject: WEATHER ALERT - [Festival Name] Cancelled for Public Safety

Festival Family,

This is the hardest message we've ever had to send. Due to extreme weather conditions forecasted for [Date], including [specific conditions], we must cancel [Festival Name] for the safety of our festival family.

After extensive consultation with meteorologists, emergency services, and safety experts, continuing with the festival would put attendees, performers, vendors, and staff at unacceptable risk.

This decision breaks our hearts. We know thousands of you have planned trips, taken time off work, and eagerly anticipated this weekend. The artists, vendors, and our entire team share your disappointment.

Ticket Refunds: All ticket holders will receive full refunds within 14 business days

Vendor/Artist Compensation: We are working individually with all vendors and performers

Camping/RV: Prepaid camping fees will be fully refunded

We are exploring options for a smaller, rescheduled event later this year and will update our community as plans develop.

Stay safe, and thank you for being part of our festival family.

With love and disappointment,

The Festival Team
