

Feedback Letter After Technical Skill Training

Subject: Feedback on [Technical Skill] Training

Dear [Trainer's Name],

I am writing to share my feedback on the [Technical Skill] training program. It was extremely helpful in clarifying complex concepts and improving my confidence in applying these skills at work.

The practical demonstrations and step-by-step approach made learning efficient. I particularly appreciated how you answered every question patiently and ensured everyone was on the same page.

If possible, adding a post-training assessment or project could make future sessions even more impactful. Thank you again for your excellent instruction.

Best,

[Your Name]
