## Course Feedback Email

Subject: Course Evaluation Feedback - [Course Name/Number]

Dear Professor [Name]/Course Coordinator,

I am providing feedback on [Course Name] taught during [Semester/Term] as part of the course evaluation process and to share thoughts that may benefit future course iterations.

Course Content and Structure:

The curriculum covered [assessment of topics, depth, relevance to learning objectives]. The progression from [early topics] to [advanced concepts] was [logical/confusing/well-paced]. I particularly valued [specific content areas] and feel [specific topics] could be enhanced.

Teaching Effectiveness:

Your teaching style [engaged students/could be more interactive/was lecture-heavy]. The use of [teaching methods - discussions, case studies, multimedia] was [effective/limited]. Explanations of complex concepts were [clear/needed more examples/assumed too much prior knowledge].

Assessments and Feedback:

Assignments and exams [fairly tested understanding/focused too much on memorization/encouraged critical thinking]. The feedback provided on my work was [timely and constructive/delayed/minimal], which [helped my learning/left me uncertain about improvement areas].

Resources and Support:

[Textbook/readings/online materials] were [excellent/adequate/outdated]. Office hours and additional support were [accessible/difficult to schedule/very helpful].

Suggestions for Improvement:

- [Specific recommendation with rationale]
- [Alternative approach to consider]
- [Resource or activity suggestion]

Overall Experience:

This course [exceeded expectations/met basic requirements/fell short in certain areas]. I learned
[valuable skills/theoretical knowledge] that I expect to [apply practically/build upon in future courses].
Thank you for your dedication to teaching. I hope this feedback assists in refining the course for
future students.
Sincerely,
[Student Name]
[Student ID]
