

Heartfelt Letter from Nurse Returning to Work

Subject: Rejoining the Nursing Team

Dear [Supervisor's Name],

I hope this letter finds you in good health. After a brief career break due to personal reasons, I am writing to express my desire to return to the nursing profession and rejoin your healthcare facility, where I previously served with pride.

During my time away, I continued to update my knowledge through online certifications and volunteer medical camps. I deeply miss the fulfillment that comes from caring for patients and supporting their recovery.

I would be honored if you would consider my reapplication for a suitable nursing role. I am ready to contribute once again with renewed energy and compassion.

Warm regards,

[Your Name]
