

Second Opinion Medical Records Email

Subject: Medical Records Request for Second Opinion

Hi there,

I hope this message finds you well. I'm reaching out because I'd like to get a second opinion about my recent diagnosis, and I'll need my medical records to share with another doctor.

My information:

Name: [Your Name]

DOB: [Date]

Recent visits: [Approximate dates]

I'm specifically looking for records from my recent visits where we discussed [condition/symptoms].

This would include any test results, your notes from our consultations, and treatment recommendations.

I know there's probably some paperwork I need to fill out, so please let me know what forms you need and if there are any fees involved. I'm happy to come in to sign papers or pick up the records - whatever works best for your office.

I really appreciate all the care you've provided, and getting a second opinion is just to make sure I'm exploring all my options for the best possible outcome.

Thanks so much for your help with this!

Best,

[Your Name]

[Phone Number]
