

Peer-to-Peer Loan Denial - Informal

Subject: Loan Listing Status Update

Hey [Borrower Name],

Thanks for creating a loan listing on [Platform Name]. I wanted to give you a heads up about your recent loan request for [Amount].

Unfortunately, your listing didn't attract enough investor interest to get fully funded before the deadline. A few factors likely contributed to this: the interest rate you offered was lower than similar listings, and some investors had questions about your debt consolidation plan that weren't fully addressed.

Don't worry though - this happens more often than you'd think! You can always create a new listing with some adjustments. Maybe consider offering a slightly higher return rate or providing more details about how you plan to use the funds.

Our borrower success team has some great tips for creating listings that get funded faster. Check out the resource center or shoot them a message.

Keep at it!
