

Funny and Casual Maintenance Job Application Email

Subject: I Fix Things – Can I Fix Yours Too?

Hi [Hiring Manager's First Name],

If something's broken, I'm the person who can make it work again – from leaky pipes to stubborn machines. I've been the go-to "œfix-it" person at my last two jobs, and I'd love to bring those skills to your maintenance team.

I take my work seriously, but not myself – you'll get a technician who's reliable, detail-oriented, and occasionally funny on Mondays. If you're still looking for someone who knows how to keep your systems running, I'm ready to roll up my sleeves.

Best regards,

[Your Name]
