Casual Marine Engineer Application Email

Subject: Marine Engineer Application

Hi [Hiring Managerâ€™s First Name],

I came across your job posting for a Marine Engineer and wanted to reach out. Iâ€™ve been working on vessel maintenance and propulsion systems for the past four years, and Iâ€™d love to bring my skills to your team.

Iâ€™ve attached my resume for your review. Iâ€™m available for a chat anytime this week if youâ€™d like to discuss how I can help keep your fleet running smoothly.

Best,

[Your First Name]
