

Sincere and passionate cover letter

Subject: Passionate Application for Marketing Internship

Dear [Hiring Manager's Name],

I am writing to apply for the Marketing Internship at your organization because marketing has always been more than just a career path for me—it is a passion. From a young age, I was fascinated by the way brands tell stories and connect with people emotionally.

Throughout my studies, I've immersed myself in projects that allowed me to explore branding, consumer psychology, and digital campaigns. My most rewarding experience was helping a local charity design promotional material that boosted donations, which showed me the power of marketing to make a difference.

I admire the work your company has done in blending creativity with impact, and I would be honored to contribute to your vision. Thank you for your time and for considering my heartfelt application.

Warm regards,

[Your Name]
