

Heartfelt MBA Motivation Letter with Career Change Focus

Subject: Motivation Letter for MBA Admission

Dear Members of the Admissions Committee,

I am writing this letter to share my deep desire to pursue an MBA as a means of transforming my career path. Having spent seven years in the engineering field, I have come to realize that my true passion lies not just in technical innovation but in the strategic management of people and ideas. I believe that an MBA will empower me to bridge my technical background with leadership, marketing, and business development skills.

Your MBA program's interdisciplinary approach resonates with my ambitions. I am particularly interested in your entrepreneurship courses and innovation labs, which will allow me to cultivate the mindset and skills needed to lead business initiatives in emerging markets. I value collaboration, diversity, and innovation – qualities that I know your program celebrates.

I am ready to embrace this new chapter of my life with dedication and curiosity. I look forward to the opportunity to grow personally and professionally through your distinguished MBA program.

Warm regards,

[Your Name]
