

Previously Unemployed Graduate Learnership Letter

Subject: Learnership Application - Unemployed Graduate Seeking Opportunity

Dear [Program Manager],

I am writing to apply for the [learnership program name] as an unemployed graduate seeking to break into the professional workforce. I graduated with [qualification] in [year] from [institution], but despite numerous job applications, I have struggled to secure employment due to the common requirement for "prior work experience."

This cycle of needing experience to get a job, but needing a job to gain experience, has been incredibly frustrating. However, I have not allowed this setback to diminish my ambition or work ethic. During my unemployment period, I have [mention activities such as online courses, volunteer work, freelance projects, or skills development]. These efforts demonstrate my commitment to staying productive and continuously improving myself.

Your learnership program offers exactly what I need: a structured opportunity to gain recognized qualifications and practical workplace experience simultaneously. I am not looking for just any job – I am seeking a foundation upon which to build a meaningful career in [field/industry].

My academic achievements include [mention relevant accomplishments, grades, or projects]. I possess strong [list relevant skills] and am known for my [personal qualities such as reliability, enthusiasm, adaptability]. What I lack in professional experience, I more than compensate for with my eagerness to learn, fresh perspective, and unwavering dedication.

I understand that being selected for this learnership is highly competitive, but I believe my academic background, combined with my hunger for opportunity and proven self-motivation during unemployment, makes me a candidate worth investing in. I am ready to commit fully to this program and prove my value.

I am available for an interview at your earliest convenience and am flexible regarding start dates and program requirements.

Thank you for considering my application and for offering programs that provide pathways for

graduates like myself.

Sincerely,

[Your Full Name]
