

Diabetic Retinopathy Follow-up Referral Letter

Dear Dr. [Retinal Specialist Name],

I am referring [Patient Name], DOB: [Date of Birth], for evaluation of progressive diabetic retinopathy.

PROGRESSION NOTED: Compared to my previous examination on [Date], the patient now shows [specific changes: new hemorrhages, exudates, neovascularization, macular edema]. Current visual acuity: [measurements]. OCT imaging reveals [findings if available].

Systemic control: HbA1c [value], blood pressure [measurements]. The patient is under the care of [PCP/Endocrinologist Name] for diabetes management.

I am concerned about the progression and believe the patient may benefit from [anti-VEGF therapy, laser treatment, closer monitoring]. I will continue co-management as recommended.

Thank you for your expertise in managing this patient.

Professionally,

[Your Name], OD

[Practice Name]
