

Creative style job application letter

Subject: Application with a Creative Touch for [Job Title]

Dear [Hiring Manager's Name],

Some people bring numbers, some bring words, but I bring both—packaged with creativity. I am excited to apply for the role of [Job Title] at [Company Name], where I believe my unique blend of [skill] and [skill] can add value.

Instead of simply listing my achievements, I want to highlight a story. At [Previous Company], I took on a challenging project where [describe achievement creatively]. This not only improved [result] but also taught me the importance of combining creativity with practical outcomes.

I would be thrilled to bring this same energy and imagination to [Company Name]. Thank you for taking the time to review my application—I look forward to connecting with you.

Warm regards,

[Your Full Name]
