

Casual Neighbor Tree Damage Claim

Subject: Property Damage Claim - Neighbor's Tree - Policy #[Policy Number]

Hi [Insurance Company],

Hope you're doing well! I need to file a claim for some property damage that happened yesterday at my house on [Address].

So here's what went down: My neighbor's huge oak tree decided to take a tumble during that windstorm we had, and it landed right on my roof and fence. Not exactly what I wanted to wake up to!

The damage includes:

- Pretty significant roof damage where the tree hit
- Completely destroyed section of my back fence
- Crushed my outdoor patio furniture
- Scattered branches and debris all over the yard

I've already talked to my neighbor about it, and they're being cooperative. Their homeowner's insurance might be involved too, but I figured I should get my claim started with you guys first.

I took a bunch of photos right after it happened and got a couple of contractors to come look at it. The roof repair alone is looking like it'll be around \$[Amount], and the fence replacement will be another \$[Amount].

I've got everything documented and ready to send over. Just let me know what else you need from me and when someone can come take a look.

Thanks for helping me sort this out!

Talk soon,

[Your name]
