

Quality Control Internship Email

Subject: Application for Quality Control Internship

Dear [Hiring Manager's Name],

I am writing to apply for the Quality Control Internship at your facility. As a third-year student in Chemical Engineering, I am eager to gain hands-on experience in product testing and process validation. I am particularly drawn to your company's innovative approach to sustainable manufacturing.

Through my coursework, I have developed a foundational understanding of analytical chemistry and quality systems. I am a quick learner, attentive to details, and comfortable working in laboratory and production settings. I am confident that this internship will allow me to apply my academic knowledge to real-world quality control processes.

Thank you for considering my application. I look forward to learning from your experienced team and contributing positively to your operations.

Sincerely,

[Your Name]
