

Seasonal Commodity Trade Message

Subject: Revocable LC Setup - Seasonal Coffee Bean Import

Dear Trade Finance Team,

We wish to establish a revocable letter of credit for importing premium coffee beans from our supplier in Colombia. Given the volatile nature of commodity prices and seasonal availability, the revocable feature provides necessary flexibility.

Supplier: Colombian Coffee Estates SA

Product: Arabica coffee beans, Grade A

Quantity: 500 bags (60kg each)

Unit Price: USD 4.50 per kg

Total Value: USD 135,000

Quality specifications must include moisture content below 12%, defect rate under 5%, and organic certification. Shipment should occur during the dry season (December-March) for optimal quality.

The revocable nature allows us to adjust quantities based on market demand and cancel if quality standards aren't met during pre-shipment inspection.

Please include standard agricultural product documentation requirements.

Best regards,
