

Formal Request to Principal

Subject: Request for Support - Behavioral Intervention Resources

Dear [Principal Name],

I am writing to formally request additional support for managing classroom behavioral challenges that have emerged this semester.

Despite implementing various classroom management strategies, I am encountering persistent disruptions that are affecting the learning environment for all students. Specifically, I need assistance with developing and implementing individualized behavioral intervention plans for several students who would benefit from additional support services.

I am requesting:

1. Consultation with the school counselor or behavioral specialist
2. Access to additional behavioral intervention resources
3. Possible classroom observation and feedback
4. Support in communicating with parents about behavioral concerns

I have documented specific incidents and attempted interventions, which I can provide for your review. I believe early intervention will significantly improve the classroom environment and student outcomes.

Could we schedule a meeting within the next week to discuss these concerns and available resources?

Thank you for your continued support of our classroom community.

Professionally,

[Your Name]
