

Informal appreciation to local business sponsor

Subject: Thank You for the [Business Name] Scholarship

Dear [Business Owner/Manager Name],

I hope this email finds you well! I wanted to take a moment to personally thank you for the scholarship you awarded me through your business. As a local student who grew up in this community, receiving support from a hometown business means the world to me.

I'm currently studying [Major] at [University Name] and maintaining a [GPA] while working part-time. Your scholarship has made it possible for me to reduce my work hours and focus more on my studies, which has already improved my academic performance.

I love knowing that local businesses like yours invest in students from our community. It makes me proud to be from [City Name] and motivates me to give back when I'm established in my career. I'd love to stop by your business sometime to thank you in person and maybe even do a summer internship if you have opportunities available.

Thank you again for believing in local students and for making such a positive impact on my education journey.

Best regards,

[Your Name]
