

## Scholarship recipient providing post-graduation update

Dear [Foundation Name] Board Members,

I am writing to update you on my progress since graduating from [University Name] as a recipient of the [Scholarship Name]. It has been [Time Period] since I completed my degree in [Field of Study], and I wanted to share how your investment in my education has yielded meaningful results.

I am currently employed as a [Job Title] at [Company Name], where I apply the knowledge and skills developed during my university years. The financial support you provided allowed me to focus on my studies without the burden of excessive student loans, enabling me to graduate debt-free and pursue opportunities based on passion rather than financial necessity.

Your scholarship also provided me with a sense of responsibility to excel and give back to the community. I have volunteered with [Organization] and am planning to establish my own scholarship fund for students in [Field/Demographic] within the next five years.

I often reflect on how different my path might have been without your support. The confidence and validation that came with receiving your scholarship were just as valuable as the financial assistance. Thank you for seeing potential in me and investing in my future.

I would welcome the opportunity to speak at future scholarship events or mentor current recipients. Please let me know how I can contribute to your mission of supporting student success.

With continued gratitude,

[Your Name]

[Professional Title]
