

Creative Design Internship Application

Subject: Creative Spark Looking for a Summer Design Internship

Dear [Hiring Manager's Name],

Design has always been my language, and I'd love the chance to speak it fluently at [Company Name] this summer. I'm currently pursuing a degree in [Your Major] and have spent the past year experimenting with colors, layouts, and user experiences through university projects and freelance work.

Your company's work on [specific project or campaign] particularly inspired me. I believe my creativity and attention to detail could bring fresh perspectives to your team. I've attached my portfolio and would love to discuss how I can contribute to your creative vision.

Thank you for considering my application – I'm excited about the possibility of joining your team!

Warm regards,

[Your Name]
