

Heartfelt Special Education Welcome

Dear Wonderful Families,

Hello! I'm Ms. Martinez, and I'm absolutely delighted to welcome you to our special education inclusion classroom. Every single day, I'm amazed by the incredible progress and unique gifts that each of our students brings to our learning community.

With ten years in special education and specialized training in autism support, behavioral interventions, and adaptive learning technologies, I'm committed to meeting each child exactly where they are and helping them soar to new heights.

Our classroom is built on celebration, patience, and individualized support. We'll work closely together to implement your child's IEP goals while fostering independence, social skills, and academic growth. Communication is my top priority - expect regular updates through our communication log, photos of daily activities, and weekly phone calls.

I understand that entrusting your child's education to someone new can feel overwhelming. Please know that your child's happiness, safety, and progress are my primary concerns. I'm here to listen, collaborate, and advocate alongside you.

Our classroom family includes wonderful paraprofessionals, related service providers, and peer mentors who create an environment of acceptance and joy. I can't wait to share your child's daily victories with you, no matter how small they might seem to others.

Let's make this year absolutely amazing together!

With love and excitement,

Ms. Carmen Martinez

Special Education Teacher
