

# Creative Arts Teacher Welcome

Dear Artistic Families,

Greetings! I'm Mr. Williams, your child's music teacher, and I'm practically bursting with excitement for the melodious year ahead! Music has been my passion for over twenty years, and sharing that joy with young musicians is what makes every day feel like a celebration.

In our music room, we'll explore rhythm, melody, harmony, and the pure magic that happens when voices and instruments come together. This year, students will learn to read music notation, play recorder and keyboard, and participate in our seasonal concerts that showcase their growing talents.

Every child is musical - some just haven't discovered their instrument yet! Whether your child is a natural performer or feels shy about singing, I create an environment where everyone can succeed and feel proud of their musical growth.

Our concert dates are already set: Fall Harvest Concert on November 20th and Spring Celebration on May 15th. I'll also be starting an after-school choir for interested 4th and 5th graders, with more details coming soon.

Music education enhances mathematical thinking, improves memory, and builds confidence that extends far beyond our classroom walls. I can't wait to help your child discover the musician within!

Let's make beautiful music together!

Musically yours,

Mr. James Williams

Elementary Music Specialist
