

Healthcare Professional Testimonial Request Letter

Subject: Patient Testimonial Request

Dear [Patient Name],

I hope you are continuing to experience good health following your recent treatment. As part of my commitment to helping other patients make informed healthcare decisions, I am reaching out to request a testimonial about your experience.

Your journey from initial consultation through recovery has been remarkable, and sharing your story could provide hope and guidance to future patients facing similar challenges. A testimonial describing your treatment experience, the care you received, and your recovery progress would be incredibly valuable.

This testimonial would be used on my practice website and in educational materials, always with your explicit consent and only using the details you're comfortable sharing. Patient privacy and confidentiality remain my utmost priority.

Please take your time to consider this request, and don't hesitate to ask any questions about how your testimonial would be used.

Thank you for trusting me with your care.

Warm regards,

Dr. [Name]
