

Preliminary Proposal Follow-up

Subject: Thank you " Preliminary proposal discussion

Dear [Name],

Thank you for your time during today's preliminary presentation. I understand this is an early-stage discussion, and I appreciate your willingness to explore potential opportunities with us.

While we're still in the exploratory phase, your initial feedback has been valuable in helping us understand your priorities and constraints. The concerns you raised about timeline and budget are valid points that we'll need to address as we develop a more detailed proposal.

I'll work with my team to refine our approach based on today's conversation. We should have a more comprehensive proposal ready for review within two weeks, at which point we can schedule another discussion if you feel it's worthwhile to proceed.

Thank you again for your consideration during this preliminary stage.

Best regards,

[Your name]
