

Creative Cover Letter for Freelance Translation Job

Subject: Bringing Words to Life – Freelance Translator Application

Hello [Client's Name],

As a passionate language enthusiast, I see translation as more than converting words – it's about transferring emotion, style, and meaning. Over the past three years, I've helped global clients bring their stories to new audiences in Spanish and English, adapting tone and nuance while preserving the author's voice.

Your project caught my eye because it aligns with my experience in creative translation for blogs, marketing content, and fiction. I can start immediately and provide a small test translation if you wish.

Let's turn your words into a bridge between cultures!

Warm regards,

[Your Name]
