

Funny message for food delivery job application

Subject: Ready to Deliver Happiness (and Hot Meals)!

Hey [Manager's Name],

I'm applying for your food delivery position because I'm already everyone's favorite person when I show up with food – might as well make it official! I know how to handle busy routes, keep meals hot, and stay polite (even in traffic).

I'm punctual, cheerful, and I promise your customers will always get their food and a smile.

Looking forward to joining your delivery heroes soon!

Cheers,

[Your Name]
